Profile

I listen to people and work with them to understand their real needs and to help create strategic, high-quality mobile solutions. I'm passionate about technology and innovation. After receiving a degree in Computer Science from the University of Pisa, I started working in the field of mobile applications in 2009 as a developer for a large market leader in electronic charts. My specialties include mobile strategy, business development and company management.

Professional Career

CEO AND CO-FOUNDER, HEDRON SRL; MILANO (MI), ITALY

AUGUST 2017 - PRESENT

Our mission is making human-mobile interaction easier and lightening the cognitive load of the user through integrated systems and natural interactions.

BUSINESS DEVELOPMENT MANAGER, BEEAPP SRL; CASCINA (PI), ITALY

FEBRUARY 2018 - PRESENT

Our goal is developing iOS and Android applications with an easy to use and fluid design, in order to guarantee the best user experience. Our strengths are the attention to every detail, high quality services and the chance for the client to follow the development process step by step thanks to very cutting-edge tools. Our team has a great experience in mobile technology and we are always able to supply the best apps and solutions.

CEO AND CO-FOUNDER, BEEAPP SRL; CASCINA (PI), ITALY

OCTOBER 2013 - JANUARY 2018

Company CEO and Co-Founder.

IOS CONSULTANT AND DEVELOPER, SELF-EMPLOYED; PISA, ITALY

JANUARY 2013 - PRESENT

iOS application development and consulting.

IPHONE DEVELOPER, NAVIONICS S.P.A.; MASSAROSA (LU), ITALY

AUGUST 2010 - DECEMBER 2012

Employed as a Software Engineer, I worked as iPhone Developer on applications for navigation and outdoor sports. My experience was mainly focused on user interface development, data sharing client-server interaction, API REST server connection, Core Location framework, version control, unit tests and automated user interface testing.

IPHONE & BLACKBERRY DEVELOPER, NAVIONICS S.P.A.; PISA, ITALY

OCTOBER 2009 - JULY 2010

I worked as a Software Engineer on different projects; both on BlackBerry and iPhone platforms and, in particular, I was asked to create a demo application to test new features.

SOFTWARE DEVELOPER, PERCRO LAB SCUOLA SUPERIORE SANT'ANNA; PISA, ITALY

SEPTEMBER 2007 - SEPTEMBER 2008

I did an internship at the Perceptual Robotics Laboratory of Scuola Superiore Sant'Anna. During this period I developed 3D applications for robotic-assisted upper limbs rehabilitation.

SOFTWARE DEVELOPER & CONSULTANT, FONDAZIONE CASSA DI RISPARMI DI LIVORNO; LIVORNO, ITALY

JANUARY 2006 - MAY 2007

After the consulting service, I developed a virtual museum for the pieces of art belonging to the Foundation. I worked as member of a team composed by different professionals.
